Test 1:

Notes:
-Subject uses many forms of social media
-Also recognized purpose right away
-Thought it was more of a blog at first than a posting medium

Problems:
-Expected more content on main page (there wasn't more added at the time though, this feature will come later)
-Wasn't sure whether to use "hero unit" or nav bar

The Good:
-Posted a link qucikly
-Registered/refreshed form easily
-Found his account page intuitively

Suggestions:
-Link previews
-Different style for pages
